

# THE YOLO DEMOCRAT.

Saturday, March 12th, 1870.

REGISTRY LAW.—The Assembly by a vote of 107 to 52, passed a bill repealing the Registry Law.

FAVORS.—We are indebted to Senator Cassey for copies of Patent Office Reports, 4 vols., and Congressional Globe.

TWO JUDICIAL DISTRICTS.—A bill has been introduced into Congress to divide California into two United States Judicial Districts.

PASSED.—The Litigant Bill has passed both houses of the Legislature and now only awaits the signature of the Governor to become a law of the State.

SACRILEGIOUS THIEVES.—At Gilroy, on the night of the 6th instant, the Catholic church was broken into by thieves, and the altar robbed of all its valuables.

COMMISSIONER ON INSANITY.—The Governor has appointed Dr. E. T. Wilkins, of Marysville, as the Commissioner to travel in the East and visit Insane Asylums.

ACCORDING TO THE Bulletin, the gross receipts of the musical festival were about \$46,000; the expenses amounted to \$20,000, leaving a net sum of \$26,000 to the benefit of the Mercantile Library.

THE NEW FEE BILL.—The bill which has just passed the Legislature modifying the Fee Bill so as to suit the circumstances of the different counties of the State, will no doubt give general satisfaction.

ST. PATRICK'S DAY.—The 17th of this month is St. Patrick's Day, sacred to the patron saint of Ireland. In San Francisco and elsewhere, the Irish population are making preparations for general celebration on that day.

NEWSPAPERS.—A bill pending before Congress proposes that all newspapers and periodicals published in the United States, if sent direct from the offices of publication to actual subscribers, shall go through the mails free of postage.

THE LITTLE CORPORAL.—This is the leading juvenile magazine of the country already, but the publishers promise great improvements during the year. The March number is a real gem. Published by Alfred L. Sewell & Co., Chicago, at one dollar a year.

LONG BRIDGE PROJECTED.—A company has been organized in Canada to build a bridge and railroad over the Detroit river, which is half to three-quarters of a mile wide, to connect Canada with the Michigan shore and avoid the necessity of transshipment; capital, \$3,000,000.

CHEAP FARMS.—Messrs. Good & Harrington have made sales of land in Colusa county during the past week, says the Sun of the 5th instant, amounting to about 10,000 acres, at prices varying from \$5 to \$8 per acre. Last fall they sold 18,000 acres. They now have in market 150,000 acres.

COLORADO VOTERS.—It is stated that the number of colored men whose right to vote is fully established, is 50,000, most of them having already exercised the right in the Southern States. It is supposed there are about sixty thousand outside of the rebel States whose right to vote is fixed by the Amendment.

RICH GOLD DISCOVERY.—New and very rich gold discoveries have been made below San Diego recently. Tuesday's Examiner says: "The steamer Orizaba brought up to-day, consigned to Messrs. Rountree and McKullen, Front street, eight boxes of rock, weighing 1,085 pounds, immensely rich in gold 'all through'—worth about \$4,000 to the ton. It was found about fifty miles from San Diego, and has caused a great stampede thither."

WOMAN TRIUMPHANT.—A telegram says: Among the jurors drawn for the March term of the Albany County (Wyoming Territory) Court, are the following named ladies: Grand Jurors—Miss Amelia Hatcher, Mrs. Dr. Hilton, Mrs. Eliza Stewart, Mrs. J. Mackel, Mrs. Agnes Baker. Petit Jurors—Miss Nettie Hazen, Mrs. Jennie Lancaster, Mrs. Lizzie A. Spooner, Mrs. Mary Flynn, Mrs. Rev. Hartshorn. The excitement caused by this strange freak is intense.

CORN AND WHEAT.—The corn crop throughout the Union for 1868 was more than four times as great as that of wheat. The former aggregated 905,000,000, while the latter reached only 224,000,000. Illinois was the largest producer of both wheat and corn, that State having reported 138,363,000 bushels of corn, and 28,500,000 bushels of wheat. The product of California for that year was 20,000,000 bushels of wheat, and 1,220,000 of corn. Illinois and Wisconsin are the only two States that exceeded California in the yield of wheat.

VALUE OF NEWSPAPERS TO FARMERS.—Clark Bell, Esq., a few days since gave to the farmers of Steuben county, New York, an address at their agricultural fair, full of matter of immediate and practical interest to his hearers. One passage of his address is worth copying here, and we give it as follows: "No one can too highly estimate the value of a good newspaper in a family of children, and I am of the opinion that if one is taken constantly in a family, it will be impossible for the children to come up without being intelligent upon all questions of the day. Every household should bring in the newspaper, then, as an absolute and indispensable necessity. I defy any farmer to try for a year, and then be able to say it has not paid, and been in every way good."

## Johnson vs. Grant.

The following extract shows the difference between the administrations of Johnson and Grant. It is from the speech of Daves, (Radical) of Massachusetts, in the House of Representatives:

Now, sir, what did Andrew Johnson, in the last year of his administration, estimate that he could carry on this government for? He estimated that he could carry it for \$303,000,000, and we cut down the appropriations \$20,000,000 below his estimate. But his own estimate of the cost of carrying on the government which the people at the polls declared to be profitable and unreasonable, was \$303,000,000. Now, sir, what does our administration estimate that it will carry on the government for the next year? The sum estimated for is \$331,097,174 62; an increase over the administration of Andrew Johnson for 1869-70, of \$28,097,174 62. But we cut down his estimates \$20,000,000, so that the exact difference between this book of estimates for the present administration and the appropriations made the last year of Andrew Johnson's administration is \$49,528,337 01. It is due to the Post Office Department to say there is an error of \$7,000,000 in the footing, which reduces the amount to some \$42,000,000. But, behind and not entering into the details of the present administration and the appropriations made the last year of Andrew Johnson's administration is \$49,528,337 01. It is due to the Post Office Department to say there is an error of \$7,000,000 in the footing, which reduces the amount to some \$42,000,000. But, behind and not entering into the details of the present administration and the appropriations made the last year of Andrew Johnson's administration is \$49,528,337 01.

And this, says the Charlotte (Mich.) Argus, from a Radical Representative. Just think of it, Republicans. The administration of Grant costs forty two millions more per year than did Johnson's. For four years this makes the sum a little sum of \$168,000,000. In other words Johnson could carry on the government four years for less money than it costs Grant to do the same work three years. And this is conducting the affairs of state in an economical manner! This is reducing the taxes of the country with a vengeance! About how long will it take for this kind of economy to pay the public debt? How long will the American people perpetuate such economy? Think of it taxpayers.

NOT QUITE SO FAST.—If the truth could be known, we would venture a trifle that the Mail purposely misrepresented our reply to the question—'What party they belonged to'—the soldiers who destroyed the Hall & Garrison printing office. While our reply is given, the accompanying remarks are intended to mislead. In the first place the 'soldierly mob' were thousands of miles from 'the rebellion.' The craven cowards—brave, honorable soldiers would scorn to do so vile an act—who committed the outrage, our pharisaical neighbor lauds exultingly as 'these brave boys.' What had they to do with 'the conflict'—meaning the rebellion? Nothing at all. The idea that a squad of so-called 'soldiers' in Southern California had anything to do with putting down the rebellion in the Southern States, is simply ridiculous. We expected the bait would be taken, however, just as it has been. But if such misrepresentation as is here indulged in be the game of our contemporaries, it will have to go it alone; our taste doesn't lie in that direction. We still claim that the mob acted in the interest of the Radical party, and further that partisan hatred and excitement at the bottom of the affair; worse still, the mob is attempted to be shielded by such radical presses as the Yolo Democrat, justified for destroying private property, and that where there was no hindrance to the operation of civil law, no provocation other than the exercise of the right guaranteed by the Constitution—freedom of the press. As to the politics of the soldiers who fought the battles of the Union, that is another question and one which is entirely irrelevant to this matter.

THE PRINTERS YIELD.—The subject of the 3d instant: "The Committee of Safety of the Eureka Typographical Union met yesterday at their rooms. They decided to give permission, under a suspension of the rules, to all members to work for sixty cents per one thousand ems—the reduction asked for by the Bulletin and Call—to go into effect immediately. They also gave members permission to obtain employment wherever they could obtain it, that is, in offices where printers are employed who do not belong to the Union. This action virtually suspends the functions of the Union, and will thus enable offices employing inferior workmen to gradually replace them with good ones. The Chapel of the day hands of the Bulletin met yesterday and decided to work for 60 cents, commencing on Monday next." For the information of the public we will mention that the old rate was 75 cents.

ANOTHER BANK FOR WOODLAND.—Articles of incorporation of the Yolo County Bank, were filed with the Secretary of State on Tuesday last. Capital stock \$100,000, with privilege to increase to \$500,000. Shares \$1,000 each. Directors—L. M. Curtis, J. D. Laugenour, D. N. Hershey, John Bemmerly, G. W. Scott, C. H. Gray, C. H. Phillips, D. W. Welty and G. D. Fiske. Place of business, Woodland.

CLEAR AS MUD.—Our astute neighbor sees that public sentiment is with the DEMOCRAT in the matter of leaving the trees on the Cemetery lot. It would be much more creditable to own up manfully than to make such weak attempts at rascality. If the object sought has been attained, we, and the public in whose behalf we petitioned, are satisfied.

OWNS UP.—The noted "Dr. May" admitted to Sheriff Bullock, while on his way to San Quentin, that he forged the letter which figured so prominently in his late trial. This admission will lessen the very small amount of sympathy which existed with some in this behalf.

## Negro Equality.

We find the following in the Dover (Del.) Delawarean of Feb 21st, which shows pretty clearly to what extent the whites and darkies fraternize in that locality, and what the effect will be when the latter come to voting. The same feeling doubtless existed all through the South: "Everywhere there is but one feeling among the Democracy in reference to this whole negro business, and that is, that under no circumstances will Democrats so degrade themselves as to affiliate with the negroes in political meetings or seek directly or indirectly their votes at the election. Let white radicals, if they so desire, place themselves on an equality with negroes and meet them in council as brothers and court them for their votes; let them take the negro to their homes and eat at the same table, and for all we care, sleep in the same bed with them; but the Democrats of Delaware do not intend to follow their example, but will maintain the true dignity of their race and the superiority with which God and nature has endowed them. We are gratified also to learn that many who have heretofore voted the Republican ticket declare publicly their purpose to vote the Democratic ticket this fall and to discard forever a party which in the past has deceived them and now proposes to degrade them and their children after them. We give the radicals all the credit we can for their change of mind, and will then beat them more than three thousand in the State."

THE LITIGANT BILL.—Instances are frequent of parties suffering from the promiscuous way in which legal advertising is now done. A Sacramento correspondent of the San Francisco Tribune, writing on the 3d instant, says: "There should be some change in the present mode of issuing notices by publication. I recently knew of an instance where a party came very near succeeding in obtaining a judgment by default for a large sum of money against defendants, for whose absence the plaintiff waited maliciously, and then served notice of summons in an obscure paper, which he knew would be seen by them only by an accident." The other day a resident in a remote corner of our own county came in and subscribed for the DEMOCRAT—stating as he did so that if he had taken it before he had just had saved twenty dollars he had just had to pay from his taxes having become over due, he only having read the Mail, whereas the notices to taxpayers were published only in this paper. Now, if it were generally known that all such notices would be published in a given paper in each county—as will be the case under the Litigant Bill—taxpayers would know where to find such notices, and not be caught in this way.

NEW AND COSTLY RESIDENCE.—F. S. Freeman, one of our oldest and most prominent merchants, has commenced building an elegant residence, the basement of which is already completed. We find the following description of it in the Mail: "The building will be 40 by 60 feet, and two stories high. The front entrance will be ornamented with four fluted columns, supporting a portico over the door which leads into a hall on the west 12x25 feet; a parlor and drawing-room, divided by a folding door partition, each room 20x25 feet, to be lighted on the west and north by bay windows; one room 12x15 off the drawing-room, with bay window on the south; the kitchen and dining room on the east end with a porch 8 feet on the east and south; four fluted columns at the north entrance to the dining-room, with a portico over the door. The balcony story window opens out to a balcony surrounded by the windows are to be plate glass, two lights to each window, 14 feet. It will be finished with French roof and Dorner windows. This building will be the finest residence in Yolo county when finished, and will cost \$16,000."

SALARY OF COUNTY SUPERINTENDENT.—The question of increasing the salary of the County School Superintendent has been agitated somewhat of late, and was unanimously favored by the Board of Supervisors. The Legislature has made any action on the part of the Board unnecessary in the premises by placing the salary at \$800 per year, without traveling expenses; this will probably give general satisfaction; though it seems to us he should have been allowed mileage for visiting the different schools of the county. The Mail formerly took ground against any increase, but has thought better of it in the matter, and now says, "We presume there is no violent opposition in this case, inasmuch as it is a plea in the interest of education." As the Superintendent does not receive mileage, the insulting "thieving" fling at an upright and honorable officer is entirely thrown away.

COUNTY COURT.—The case of Stewart, a negro, charged with assault to commit murder, Davisville, came up for trial on Tuesday, occupying all day, and was submitted to the jury about 5 o'clock in the evening. The jury could not agree at first, but about three o'clock Wednesday morning returned a verdict of "guilty of assault and battery." He was sentenced to pay a fine of \$150 and costs of suit, or in default to remain in jail until the fine was paid at the rate of \$2 per day. The fine was paid in greenbacks, and the prisoner discharged.

GOVERNOR BLEKE, whose health has recently not been good enough to stand the strain imposed by the care of a daily paper, retires from the more active duties of the profession after making a tour of the State at the invitation of the State at the no distant day, which will be good news to his friends, and he has friends everywhere, for the history of no man in California is more closely interwoven with that of this State.—Reporter.

SUDDEN DEATH.—On Thursday last our esteemed fellow-townman, H. P. Peterson, (of the firm of Peterson Bros., painters,) suddenly fell from his chair at the supper-table, and expired without a moment's warning. He was on the street as usual and attending to his business of painting during the day. Only week before last we published his marriage to an estimable young lady, Miss Gifford, upon whom this sudden visitation falls with crushing force. Verily, "in the midst of life we are in death."

THE OLD GUARD.—This sterling Democratic and Literary Magazine for March is at hand, and presents the following table of contents: The Heir of Gaymount; Fair Elisabeth; The Supreme Court and the United States vs. Congress; In Spite of Myself; What Came to Utopusnost; Under Suspicion; Down Among the Dead Men; The Mistletoe Club; Our Book Table; Art and Science. Van Errie, Horton & Co., publishers, 162 Nassau street, New York. Terms, \$3 per year.

CALLER IN.—Samuel M. Gillingham agent and correspondent of the Marysville Appeal, has been sojourning at R. R. We notice a highly complimentary letter descriptive of Woodland and Yolo county, written from this place on the 8th inst. The Appeal is the first daily to greet each morning, reaching here at half-past seven, and Mr. Gillingham is canvassing our town for a list of subscribers. He compliments the Hunter House very highly.

PINE PEN DRAWING.—Miss L. M. Brown has shown us some specimens of pen drawing which are hard to beat—some very pretty roses, and the American Flag—a credit to the fair draftsman. Miss Brown is meeting with good success as a teacher of Penmanship, and has a large class in Davisville, another at Knight's Landing, and still another at Cacheville.

LARGE BARLEY AND WHEAT.—We have been shown tufts of wheat and barley, from near Buckeye, the former measuring 31 feet in height and the latter over four feet. These specimens were pulled from a large field that was summer-fallowed, and we learn there are thousands of acres nearly as forward. It is said to be a month ahead of the usual growth at this season of the year.

ANOTHER SUDDEN DEATH.—Mrs. Welch, widow of the late Samuel K. Welch, residing about three miles south of this place, died very suddenly on Thursday evening. She was in town on Saturday last, as well as usual, and had but recently returned from a visit to the East.

SILK CULTURE.—A pamphlet with the title "Observations on the Culture of Silk in California," by J. N. Hoag of Yolo, has been received, and will have a more extended notice as soon as our present press of business will permit.

SCHOOL EXHIBITION.—On the 19th instant the scholars of the public schools of this place, 200 in number, will give an entertainment, consisting of recitations, tableaux, etc., which will no doubt be largely attended.

BUILDING AND BUILDING MATERIALS.—L. F. Craft, to whom Woodland is indebted for most of its good buildings, advertises to furnish bricks and other building materials in any desired quantity.

LECTURE.—Mrs. L. DeF. Gordon addressed a small audience on Sunday evening last, at the Court House, of which we have not been able to obtain particulars.

IN TOWN.—Our Representative in the Legislature, H. J. M. Kelley, was in town the other day, looking remarkably well.

SPARE THAT TREE.—In 1853 we dug a well on the "Reserve," just above the place in which there was so much quicksand that it soon caved in, and in 1855 it had nearly filled up. Protected by its banks a cedar-wood sprang up in it in 1855, and has continued to flourish until about a fortnight ago, when it fell a victim to the ruthless axe. It was nicely cut up into cord wood, and yesterday we went and took a look at the pile of wood, which we measured as correctly as we could, and found that the tree had made about seven cords of wood. This is about half a cord of wood a year from the seed. If the farmers out on the plains would make it a rule to plant, say ten trees each Spring, around their homesteads, and other waste land, it would only be a few years before they would have plenty of wood for home consumption. The cost of this would be absolutely nothing.—Colusa Sun.

ANOTHER GOLD PANIC.—New York, March 8th. The excitement in the gold market to-day has been without parallel since September last. The anxiety of some gold dealers assumed the shape of a mania, the equal of which was never before witnessed in the room. The fluctuations were unusually frequent. Dealers recorded nearly one hundred changes during the day. The scene was almost indescribable. Everywhere in financial and commercial circles the gold question was the great topic of conversation. As it continued its downward course it was felt through all the ramifications of business. The excitement was intensified by all manner of rumors from the press, and the decline of gold had a tendency further to unsettle business in mercantile circles and weaken prices. This was particularly applicable to the department of dry goods.

GOVERNOR BLEKE, whose health has recently not been good enough to stand the strain imposed by the care of a daily paper, retires from the more active duties of the profession after making a tour of the State at the invitation of the State at the no distant day, which will be good news to his friends, and he has friends everywhere, for the history of no man in California is more closely interwoven with that of this State.—Reporter.

ADMINISTRATOR'S SALE.—Attention is called to the sale advertised in another column, to take place at Knight's Landing on the 22d instant—a chance for bargains to saloon-keepers and others.

MARRIED.—In New Brighton, Penn., Feb. 22d, Dr. G. W. Read, of Yolo, to Miss Etta Mower.

BORN.—Near Cacheville, March 3d, wife of James Root, a daughter.

DIED.—In Woodland, March 10th, H. P. Peterson, aged 27 years.

## Town and County Matters.

[CORRESPONDENCE FOR THIS DEPARTMENT IS INVITED FROM ALL PARTS OF THE COUNTY.]

### CAPTURE OF A CRAZY DESPERADO.

On Monday evening last a complaint was laid before Justice Peterson by a citizen who desired the arrest of one Joseph Hatch, residing near the "Four Corners," three or four miles this side of Knights Landing, upon a charge of insanity. The Justice issued the warrant and under Sheriff Henry, accompanied by J. D. Lawson, started early on Wednesday morning for the place of residence of the accused, who for some time past has been living with his aged parents. It appears that several years ago Hatch became insane, and being a dangerous character was with much difficulty captured and taken to the Insane Asylum at Stockton, where he remained for some time, from which place he afterward escaped and has since, with the exception of occasional brief intervals, been a raving maniac. Recently he has become more violent than ever, threatening to exterminate all who approach him and keeping the neighborhood in terror. He seems to have contemplated the intention of killing the Justice, and having armed with a long, keen pointed butcher knife which he flourished defiantly, and dared any one to approach him. An effort was made by the officers to intimidate him by presenting pistols at him, but he looked steadily into the muzzles of the firearms and dared the officers to fire. Each officer then proceeded a step with which to resist his attacks, hoping to knock the knife from his grasp without doing him any more injury than was necessary. He made a sudden spring at John Ball, who was present to assist in his capture, and Ball struck the maniac with his club, which was broken in two by the force of the blow and failed to check Hatch's advance. In stepping backward to avoid the deadly knife Ball made a misstep, and in an instant the maniac stood over him with the knife uplifted, but just at that instant an opportune shot fired by Henry passed through the arm of the maniac, causing him to loosen his hold on the knife and giving Ball time to again arm himself with a club. Scarcely, however, had the knife left the grasp of the wounded man before it was seized by the maniac in his other hand. He was then struck a powerful blow by Lawson, but he still seemed disposed to fight as savagely as ever. Finally he was lassoed and secured in irons, and is now lodged in the Insane Asylum, from which it is hoped he will not be permitted to escape again. He is a man too dangerous to be at large. Great credit is due to Under Sheriff Henry and to Messrs. Lawson and Ball for the cool bravery they displayed in effecting the capture of this dread of the neighborhood. Ball's lasso was used to good purpose on the occasion. The aged parents of Hatch as well as the whole community are now relieved from the presence of the crazy desperado.

In a Bad Fix.—A fellow calling himself George Powers kicked up quite a fuss in our quiet town the other day. A lady came up from below on the Railroad, and the car being full took a seat beside this man, of course supposing him to be a gentleman, in which, however, she was sadly mistaken. Arriving at Woodland, he very politely accompanied the lady to the Capitol Hotel, and happened to be quartered in a room next to her. About eleven o'clock he knocked at her door and requested to be admitted, but of course, was refused, when he entered the room en disshabille through the transom over the door, but the screams of the lady soon alarmed him and he made tracks for his own room, in which he was locked by order of the landlord for the night. Next morning he attempted the crazy dodge, but when the train came along (in his insanity) he undertook to get aboard without having settled his hotel bill. Here he was foiled again by the very landlord of the Capitol, who informed him that he must not leave these parts till his bill was paid at the hotel. He was shortly afterwards taken in custody and after examination by Justice Peterson was ordered to give bonds in the sum of one thousand dollars to appear before the next Grand Jury, in default of which he was committed to jail.

WOODLAND.—The following flattering picture is given of our beautiful town by the *Sutter Banner*, published at Yuba City, whose editor recently gave us a call: "On Monday last, for the first time, we visited the beautiful town of Woodland. The place is building up very rapidly, there being at present seven or eight large brick buildings in course of construction. Woodland is about the size of Colusa, and at the present rate of progress will soon leave Colusa in the background, and become at least the fifth city in magnitude in California, if not the fourth. The activity of the town—the teams upon the streets and the bustle on the sidewalks, give it quite a city-like appearance. Over 200 of the Sacramento and San Francisco dailies circulate there. The leading papers circulate about as follows: *Call*, 45; *Union*, 45; *Chronicle*, 30; *Reporter*, 30. The Vallejo Railroad does an immense amount of business at this place. Large amounts of wood and live stock are shipped daily from this point. We found Woodland all it has been represented to be by its local papers—the *Democrat* and *Mail*. The *Banner* is certainly very complimentary, perhaps just a little too flattering. It is in the main correct, however, and we shall take pleasure in reciprocating when an opportunity occurs.

FESTIVAL.—The ladies of the Catholic Church of this place will give a Grand Festival and ball on Monday, May 24, the proceeds to be devoted to finishing their new church building. So worthy an object cannot fail to receive the patronage of so liberal a community. The *Banner* is certainly very complimentary to the appearance of the place. This early announcement is made in order that the public may be prepared for the event. It is designed to hold a fair for the sale of various articles, and refreshments will also be furnished. A grand ball will be held in the evening. Tickets to festival and ball \$2.50. Further particulars will be given hereafter.

New Day Goods Store.—It will be seen by a notice in this paper that Morris Hyman has withdrawn from the firm of K. & M. Hyman, and his friends and the public are informed that he will open a store on his own account about the 15th inst., in Craft's new building, opposite the College.

SPIRITUALISM.—We are requested to state that George C. Irvin, Esq., of San Francisco, will deliver a lecture at Temple Hall, on Sunday evening next, at 7 1/2 o'clock. Subject: "Spiritualism—what is it, what its uses?" Admittance free.

Board of Supervisors.—The Board met pursuant to adjournment, on Monday last, and completed their labors on Wednesday. We give a summary of all business of importance transacted: Supervisor Springle authorized to procure for Milton Dale, Justice of the Peace for Graton Township, a copy of the Statutes of California passed during the years 1897 and 1898. R. M. Bennett awarded contract for grading road, as per advertisement, near Davisville; the work to be completed within sixty days. Robert Palmer, Justice of the Peace for Cottonwood Township, having failed to qualify, E. E. Perkins was, on petition of citizens of that township, appointed to fill the vacancy. Final hearing in the matter of road from F. C. Ruggles' to the Woodland road, set for May session. Ordered, that warrant be drawn on the Hospital Fund to the amount of \$50, in favor of one Cornell, now kept at the expense of the county, to enable him to go to his friends in the East. Final hearing in the matter of the road from Levison's store south to Patah Creek, set for May session; also, same disposition of road from titles west, past Colli's ranch. Bond of County Assessor as ex-officio Tax-Collector, fixed at \$2,000. A safe was ordered purchased for the use of the County Treasury. In pursuance of a law of the State, the Board authorized the planting of trees along the roadside, the distance to be not less than sixteen feet between them; the species of trees authorized, as deemed best adapted to this county, was cottonwood, locust, black walnut, poplar, elm and maple; and, after complying with the regulations of the Board in the matter, one dollar will be allowed by the county for each tree planted, including the cost of the seedling in the winter of 1899-70. No road labor will be received in payment of road, poll, or property taxes for the year 1870. A road tax of \$2 was levied upon each able-bodied man in the county, under 50 years of age. A property tax of \$2.27 on the \$100, was levied, including the State tax of 97 cents on the \$100. Bill of \$206.50, balance due for plastering County Hospital, was ordered paid; also, \$300 to D. Beylis, in payment for grading road. Proposition of Giles E. Still to insure the County Hospital in the sum of \$5,000, at two per cent. per annum, was accepted. Board then adjourned to meet on the first Monday in April.

OPPOSITION TO WOMAN SUFFRAGE.—Mrs. M. Field delivered a very entertaining and instructive lecture at Temple Hall, on Wednesday evening, in opposition to Female Suffrage. It was shown in a clear and forcible style that woman's influence is greater for good without the franchise than it would be were she invested with that power; that the use of the ballot would degrade rather than elevate woman; would create discord and strife, where now reign peace and harmony. We are glad that this question discussed, both pro and con, by "the sex," but this is the first lady we have heard defend and advocate what we consider the franchise. She was ably assisted by her mother, uncontaminated by politics and the rude jostlings of the outer world. It is pity so good a lecture was not listened to by a hall full of people instead of so small an audience. But this is accounted for by various circumstances. It will be seen that Mrs. Field advertises to lecture again on Thursday evening next, (March 17th), at the Court House. Subject: "The Franchise of the Times, both National and Individual." We expect to see the Court-room packed full to listen to the eloquent lady.

MAY-DAY CELEBRATION OF THE PUBLIC SCHOOLS OF YOLO COUNTY.—The following communication addressed to the various teachers of the County, speaks for itself: "It is the wish of a number of the friends of education, that the First of May shall be the occasion of a marked demonstration under the auspices of the Public School Department. The Woodland school has undertaken the task; appropriate resolutions have been adopted and the necessary number of committees appointed. It is proposed to unite, on the above-mentioned day, the entire body of scholars attending Public Schools in the County of Yolo, and of each outside districts as may wish to attend. In addition to the usual May-day ceremonies the Committee of Arrangements propose to secure the services of the highest order of talent that can be made available. A grand collation will be served up in the open air. You will confer a favor by informing yourself as to the feeling in your district and forwarding to us at the earliest moment the result of your inquiries accompanied by such suggestions as you may be pleased to make.

CHS. COM. OF ARRANGEMENTS. Woodland, Yolo Co., March 8th, 1870."

TAYLOR FAMILY.—Another pleasing entertainment will be given by the world renowned Mart Taylor, on Saturday evening next, when all the lovers of fun will be out to enjoy the treat. For genuine humor Mart can't be beat. Go and see him by all means. Let those who laugh who never laughed before, and they who always laughed now laugh the more. In this connection we may mention that Mr. Taylor has determined to make this place his permanent residence and will soon organize a dramatic troupe.

NEW COUNTY COMMISSIONER.—Judge Ramo of the Sixth Judicial District has appointed H. G. Burnett, of this place, District County Commissioner for Yolo County, vice C. P. Sprague.

AT HIS POST AGAIN.—Prof. Espina has been absent from town a few days, but will be on hand with his class in penmanship at the public school house again on Tuesday evening next.

## SPECIAL NOTICES.

PAIN KILLER.—After a thorough trial by numerous witnesses, has proved itself the medicine of the age. It is an internal and external remedy. One positive proof of its efficacy is that it cures the most violent headache, and wholly upon its own merits. The effect of the Pain Killer upon the patient taken internally, in case of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Bruises, Bore, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony as almost infallible remedy, that it will be handed down to posterity as the greatest medical discovery of the 19th century.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."

The effect of Dr. Walker's Vinegar Bitters, even when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose. There is no nausea or disturbance of the stomach, and instead of causing any sense of languor or debility, it seems to invigorate the whole system, and excite the keenest appetite.
